# CleverEV Parking Garages

Elevate your parking facility with CleverEV to become the go-to spot for EV owners. Guarantee continuous charging access, even during peak hours, and cater to the expanding EV community. Integrate our versatile charging solution effortlessly into your current setup for simple installation and administration. Utilize RFID Authorization for streamlined management and clear billing processes.

## Centralized Charger Management

Effortlessly manage all chargers from one interface, regardless of brand, for streamlined operations.

## Flexible Payment Options

Accept major credit cards with funds deposited directly into your account, eliminating additional commission fees.

## Tenant Management

Easily manage multiple tenants and split charging fees seamlessly, authorizing access via mobile apps or RFID cards.

## Revenue Maximization

Maximize revenue without limitations on charging stations based on subscribed electricity capacity, retaining earnings without sharing with platform operators.

## Automated Invoicing

Automatically generate and send invoices for charging sessions, streamlining the billing process.

## Support

Our skilled and dedicated team is ready to provide assistance throughout the whole partnership.
